

Sir Bobby Robson SEMH School

Completion Date: August 2020

Contactor: R G Carter

Architect: Concertus

Type: Cabinetry, Wet Areas, Benching, & Science Area's

Scope of works:

- Neutral woodgrain and concrete-effect finishes to support a calm, modern learning environment.
- Durable cantilever benching with height-adjustable feet for flexibility and strength.
- Moisture-resistant MDF doors and hardwearing cabinet carcasses for use in high-demand areas.
- Easy-to-clean solid grade laminate worktops with high chemical resistance for science and wet areas.
- Specialist sinks and taps to meet the rigorous safety and hygiene needs of laboratory environments.
